Intro Statement

Holvon Industrial Foundry Private Limited-A new-age industrial powerhouse headquartered in Bengaluru, India. A company created with a vision to shape industries, build technologies, and deliver sustainable growth. Rooted in innovation, precision, excellence, responsibility and sustainability, we are driven to create products and platforms that empower industries and societies. We exist to create a trusted ecosystem where customers, suppliers, and employees grow together, making *Holvon*⁷ a company admired worldwide.

Holvon Industrial Foundry is more than a business – Every relationship, every milestone, and every achievement we pursue is anchored in our philosophy and it is a promise of building a legacy that will inspire generations.

Headline :Powering Advanced Manufacturing for a New World.

2. About Us

Holvon Industrial Foundry Private Limited is the industrial and manufacturing pillar envisioned as a powerhouse in the fields of industrial manufacturing, technology integration, and global trade. Established with the aim to build industries of the future, *Holvon⁷* embodies a spirit of innovation, advanced technology, sustainable practices, resilience, and legacy-building.

Our approach integrates large-scale manufacturing excellence with deep respect for people, processes, and the planet. *Holvon⁷* is founded with the vision to become a world-class industrial solutions company from India and rooted in Indian values yet aligned with global excellence, we are building a name that will resonate across industries, nations, and generations. Our ambition is not just to compete but to lead on a global stage .

Our foundation rests on three pillars: Trust, Technology, and Transformation. We are committed to producing globally competitive products and solutions with a deep focus on quality and compliances that support industries, empower people, and contribute to a sustainable future.

At the core of Holvon Industrial Foundry is the belief that industries are not just about machines and products, about creating value and legacy by setting new benchmarks in trust and growth, we aim to emerge as a globally admired industrial and technology leader that creates lasting impact for customers, community that will define the future of industries & create industries that last for generations.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

We are building industries of the future across:

- “Electronics Contract Manufacturing, EMS & ESDM”
- “Automotive & EVs”
- “Consumer, Home appliances & Industrial Products Manufacturing”
- “Green Energy & Sustainability”
- “Defence & Aerospace”
- “Medical & Life Science ”
- “Future Technologies- IOT, Automation and Robotics”

What We Stand For

- Excellence in every product and process
- Long-term partnerships with customers and suppliers
- Empowering employees with a culture of pride and growth
- Commitment to sustainability and innovation

3. Vision

Our vision is to establish Holvon Industrial Foundry Private Limited as a globally admired leader in industrial manufacturing and technology, setting benchmarks in quality, responsibility, integrity and sustainability, a future-ready industrial ecosystem that uplifts societies, enrich lives, drives economic growth, and leaves behind a legacy of trust, inspire progress and foundation of human-centric innovation. We aim to be globally recognized as a company that doesn't just build industries that thrive not only by profit, but nurtures them by purpose responsibly – balancing speed with sustainability, growth with ethics, and contribute to a future where technology and humanity move forward together.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

...Vision

We are committed:

- To transform industrial innovation into a global standard of excellence.
- To pioneer sustainable, technologically advanced, and globally competitive industries.
- To build an ecosystem of innovation, responsibility, and sustainability.
- To become world-renowned enterprise that creates value for industries and communities alike.

4. Mission

Our mission is to redefine industrial excellence by design, develop, responsibly manufacture using advanced manufacturing systems, and uncompromising quality, and deliver globally competitive innovative products, solutions and services across domains that drive industrial transformation driven through cutting-edge technology, creativity, integrity while creating long-term value for stakeholders. we are committed to building industries that contribute to economic growth, environmental sustainability, and social development. We are committed to bridging manufacturing strengths with global standards, ensuring that every product, process, and partnership reflects our dedication to quality, ethics, and progress. We strive to be a trusted name worldwide, representing the best of industry on a global platform.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

...Mission

We are committed:

- To design and manufacture globally competitive products that set new benchmarks.
- To deliver world-class engineering and manufacturing solutions with uncompromising quality.
- To integrate advanced technologies that transform industries and societies.
- To build an ecosystem where customers, suppliers, and employees thrive together.
- To create lasting value for society through innovation, responsibility, and sustainability.
- To guide every relationship, every product, and every milestone with a singular purpose: to create value for customers and suppliers, also for employees, communities, and the planet at large.

5. Core Values

○ **Integrity & Trust** – We stand for absolute honesty, ethical practices in all our relationships and decisions , transparency, and fairness in everything we do.

○ **Innovation & Excellence** – Constantly pushing boundaries, we embrace change, create new possibilities, and adapt to evolving needs seeking new ideas, redefining the standards of industries adopting new & advanced technologies, ensuring world-class quality in products, solutions, relationships and building with precision.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

...Core Values

- **Sustainability & Responsibility** – Every choice we make is mindful of our environment and ecological balance, protecting resources, our people, and the innovating for generations to come ensuring that progress does not come at the cost of nature.
- **Partnership & People First** – We build long-term, meaningful relationships with clients and communities, employees and partners. By building trust-driven, long-term collaborations, we create mutual growth and shared success.
- **Legacy & Long-term Thinking** – Our focus is not on quick wins but on building companies, products, and solutions that endure for decades and centuries.
- **Quality & Discipline** – Commitment to perfection in products, processes, and delivery.
- **Global Competitiveness Outlook** – While our reach is global, our foundation is deeply rooted in Indian values, ethics, and culture. Ensuring that every product, service, and solution we create stands strong on the world stage.
- **Commitment-We** are deeply dedicated to our stakeholders, employees, and society — honoring every promise and building a legacy of trust.

6. Scope of Work / Industries

Holvon Industrial Foundry covers a wide spectrum of industrial domains, ensuring future relevance and long-term sustainability.

Electronics Contract Manufacturing Services (EMS) & ESDM

PCBAs, SMT, PTH/MI, final assembly, integration & box-build, testing, inspection & quality assurance – a **complete EMS & ESDM solution**. Holvon Industrial Foundry is committed to **advancing the electronics ecosystem** by providing **end-to-end Electronics Manufacturing Services (EMS) and Electronic System Design & Manufacturing (ESDM)**. From **product design and prototyping to high-volume production, testing, and lifecycle support**, we deliver **comprehensive solutions under one roof**.

Our capabilities are tailored for **consumer electronics, home appliances, industrial automation, Telecommunication systems, and emerging IoT applications, Automotive, medical, Defence and Aerospace**. With **state-of-the-art infrastructure and world-class processes**, *Holvon⁷* ensures **speed, scalability, and uncompromising quality**.

Manufacturing & Trading

Products, electronics & electrical components, tools, equipment, machineries, and consumables design , development– **empowering industries with integrated global sourcing and manufacturing excellence**.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

Phase-1 Expanded Scope of Work – EMS & ESDM Facility

1) Electronics Manufacturing & Assembly (EMS – Contract Mfg)

End-to-end manufacturing, assembly, testing, and packaging of electronic products.

2) PCB Development & Component Sourcing

PCB design, development, and procurement of electronic components from global sources.

3) Precision Engineering Sourcing

Procurement of sheet metal, plastic, and high-precision engineered parts.

4) Electro-Mechanical Integration

Sourcing and integration of electromechanical components from global suppliers.

5) Advanced Manufacturing Lines

SMT, PTH/MI, and final box-build integration with comprehensive testing and quality assurance.

6) Compliance & Laboratory Testing

End-to-end compliance management, including regulatory certifications, audits, and laboratory coordination.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

...Phase-1 Expanded Scope of Work – EMS & ESDM Facility

7) Environmental Standards

RoHS & REACH-compliant process controls.

8) Design for Manufacturing & Testing

PCBA-level and box-build DFM/DFT analysis for reliability and efficiency

9) Tooling & Jigs Development

Custom tools and jigs to optimize manufacturing accuracy and efficiency.

10) OEM/ODM Collaborations

Joint product design & development with OEMs, ODMs, and Fortune 500 companies.

11) Certified System Practices

Adherence to ISO 9001 and IATF-certified specialized manufacturing practices.

12) Jobwork & Turnkey Solutions

Flexible business models covering both job-work manufacturing and complete turnkey solutions.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

...Phase-1 Expanded Scope of Work – EMS & ESDM Facility

13) Design & Engineering Support (NPI / DFM / DFA)

Support through design-for-manufacturing, design-for-assembly, prototyping, and new product introduction (NPI) to ensure manufacturability and rapid market readiness

14) Supply Chain & Procurement Management

End-to-end component procurement, inventory management, forecasting, and obsolescence management—leveraging global supplier networks to ensure continuity of supply

15) Cable & Harness Assembly

Fabrication and assembly of complex cable harnesses, including cutting, crimping, termination, and integration into final builds

16) Comprehensive Testing & Inspection

Implementation of AOI, ICT, functional testing, environmental stress testing, and X-ray inspection to ensure highest quality and reliability

17) Aftermarket Services & Lifecycle Support

Repair, refurbishment, warranty support, lifecycle management, and component obsolescence mitigation for sustained relationship and product longevity

18) Lifecycle Analytics & Product Evolution

Strategic product lifecycle analysis, managing evolution from introduction to end-of-life, ensuring proactive product sustainability

+ 91 9205639776

Key Focus Areas RoadMap:

1) Automotive & Mobility

We are **driving the future of mobility** by supporting the design and manufacturing of **automotive electronics, advanced parts, EV components, and smart mobility solutions**. *Holvon⁷* focuses on enabling **next-generation vehicles** with cutting-edge technologies including **infotainment & telematics, battery management systems, charging infrastructure electronics, and ADAS modules**.

Our expertise not only supports established OEMs but also **empowers startups and innovators in the electric vehicle ecosystem**, positioning *Holvon⁷* as a **trusted partner in India's EV revolution**.

2) Defence & Aerospace Systems

Holvon⁷ supports **India's strategic industries** by offering **high-reliability electronics** for defence and aerospace applications. Our focus spans **ruggedized PCB assemblies, advanced communication systems, and mission-critical subsystems** for land, air, and space platforms.

With **strict adherence to global defence standards, quality systems, and confidentiality protocols**, *Holvon⁷* aspires to **strengthen India's defence self-reliance** while earning **trust from international partners**.

3) Technology & Services (ESDM)

Electronics design, PCB manufacturing, high-performance components, embedded systems, assembly, large-scale industrial repair, inspection, and continuous innovation across industrial, automotive, and technological domains and their support ecosystems.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

...Key Focus Areas RoadMap:

4) Healthcare & Medical Electronics

Healthcare is evolving rapidly with technology, and *Holvon⁷* is at the **forefront of delivering medical-grade electronic systems and devices**. Our scope covers **patient monitoring systems, diagnostic devices, imaging support electronics, and wearable health technologies**.

With a focus on **accuracy, safety, and reliability**, *Holvon⁷* aims to **empower healthcare providers and improve patient outcomes globally**.

5) Energy & Power Systems

Energy is the **foundation of progress**, and *Holvon⁷* is dedicated to **powering the future with sustainable and reliable energy solutions**. Our scope includes **solar inverters, energy storage systems, power modules, and smart grid-support electronics**, engineered for **efficiency and resilience**.

By combining **innovation with green energy practices**, we aim to **contribute significantly to India's renewable energy mission** while delivering **advanced products to global markets**.

6) Industrial Manufacturing

Our expertise extends into **industrial automation, smart city solutions, and infrastructure electronics**, enabling industries and communities to become **more efficient, connected, and intelligent**.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

...Key Focus Areas RoadMap:

*Holvon*⁷ designs and manufactures **systems for automation, robotics, smart factories, large-scale precision engineering, advanced industrial solutions, energy management, surveillance, and connectivity** – bringing together **innovation and practicality** to support **future-ready industrial and civic ecosystems**.

7) Future Technologies

Holvon Industrial Foundry places strong emphasis on **R&D and innovation-driven growth**. We are building capabilities in **semiconductors, advanced materials, IoT, AI-enabled electronics & digital integration, robotics, and next-generation solutions bridging industry & digital innovation**.

By fostering **collaborations with global technology leaders, research institutions, and startups**, *Holvon*⁷ ensures that we not only respond to **today's demands** but also **shape tomorrow's industrial landscape**.

We aim to connect innovation with scalability, building industrial systems and global-scale production that are not only powerful but also for industrial transformation and global competitiveness.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

7. Managing Director Note

About the Founder

Holvon Industrial Foundry Private Limited is founded by T Rahul Rajan a visionary entrepreneur with a deep belief in responsibility, sustainability, and innovation, he established *Holvon⁷* as a platform to integrate industries, technology, and future-driven businesses. He combines a legacy-oriented mindset with modern business acumen. His years of exposure journey shaping world-class organizations in manufacturing, trading, business building, strategic foresight, technical expertise, and visionary leadership reflects resilience, vision, innovation, strength, and purpose and the pursuit of excellence — qualities that are at the heart of *Holvon⁷*.

Message from the Founder

Industries are not just machines and processes – they are ecosystems of determination, trust, responsibility, and innovation.

At Holvon Industrial Foundry, we are not here to simply manufacture; we are here to create a cradle for industries to be born, nurtured, and scaled into global legacies.

My journey of nearly 2 decades has taught me that growth without responsibility is hollow.

Holvon Industrial Foundry is my commitment and a vision to build an institution that inspires generations, empowers industries, and sets global benchmarks.

True success is measured not in wealth alone, but in the legacy a company leaves behind for its people, its community, and the future of humanity.

+ 91 9205639776

trahhulraajan@holvonindustrial.com

8. Why Choose HOLVON

- A company built not just for profit but for purpose, legacy and responsibility.
- A holistic approach that integrates manufacturing, R&D, sustainability, and services.
- Backed by a clear vision and strong values that ensure trust and long-term partnerships.
- Positioned as a future-ready global player while maintaining ethics business practices and global standards.
- A brand that aims to be synonymous with sustainability, excellence, and innovation, built to become a multi-industry leader and future global powerhouse.

Holvon Industrial Foundry Private Limited is not just a company – it is the foundation of a legacy-driven ecosystem that will inspire confidence, shape industries, and build a cradle for the future.

THANKING YOU !

Holvon Industrial Foundry Pvt Ltd
